BIJU BABY

MERN Stack, React Native Developer, UI/UX Designer

EDUCATION

BACHELOR OF TECHNOLOGY
MG University, Kerala
2013 – 2017

HIGHER SECONDARY
Board of Higher Secondary Education
2011 –2013

HIGH SCHOOL
Board of Public Examination
2009 – 2010

PROFESSIONAL SKILLS

- React.js
- React native
- Javascript
- Html/css
- Tailwind css
- Node.js
- Express
- MongoDB
- Express.js
- Next.js
- UI/UX designing
- Debugging
- Redux
- Python
- API

ABOUT ME

Dynamic professional with expertise in MERN Stack development, React Native mobile app development, and UI/UX design. Proficient in utilizing React, Node.js, Express.js, MongoDB, and React Native framework to build robust and scalable web and mobile applications. Skilled in creating intuitive user interfaces, wireframes, and prototypes, with a focus on delivering exceptional user experiences. Collaborative team player with strong problem-solving abilities and a passion for staying updated with the latest technologies and design trends. Proven track record of successfully delivering projects on time and exceeding client expectations.

WORK EXPERIENCE

JR.MOBILE APP DEVELOPMENT INTERN (REACT NATIVE)
Inmakes Infotech Pvt Ltd, Vyttila, Kochi, Kerala, India | Present

- Led the initiative to create a cross-platform mobile application with React Native, which resulted in the successful deployment of the app on iOS and Android platforms.
- Worked closely with UX/UI designers to transform design specifications into functional and visually engaging mobile interfaces.
- Employed React Navigation to ensure smooth navigation within the mobile application, incorporating stack navigators, tab navigators, and drawer navigators to optimize user experience.
- Executed responsive layouts and enhanced performance across diverse screen sizes and resolutions, aligning with mobile design principles.

Intern-UI/UX Designer
Tecswan - Centre for IT Research & Development, Kochi| Present

- Assisted in the development and refinement of wireframes, mockups, and interactive prototypes using tools such as Balsamiq, Gloomaps and Figma.
- Collaborated closely with developers to execute and refine design concepts, addressing technical aspects and ensuring a smooth transition from design to development.
- Contributed to crafting designs that are accessible and responsive, catering to a diverse user base with different needs and devices in mind.
- Collaborating with team members to gather requirements and translate them into design solutions
- Supporting the development and implementation of accessible and responsive design solutions.

Intern-MERN Stack Development
Irohub Infotech Pvt Ltd - Kaloor, Kochi |July 2023 – Jan 2024

- Focuses on developing user interfaces using React.js, HTML, CSS, and JavaScript. Responsibilities may include creating interactive components, implementing UI designs, and optimizing frontend performance.

- Worked closely with the development team to introduce novel features and elevate the user experience of a client-oriented web application
- Built Restful AP is using Node.js and Express.js for efficient data retrieval and manipulation
- Integrated MongoDB or other databases to store and manage application data, ensuring scalability and performance.
- Worked on end-to-end development of web applications, from conceptualization to deployment
- Utilized MERN (MongoDB, Express.js, React.js, Node.js) stack to create dynamic and interactive web solutions.
- Conducted thorough testing and debugging to ensure smooth functionality across all components of the application.

PROJECTS

Gym Management System

- The Gym Management System Project is developed utilizing React JS, Mongo DB, and Express JS technologies.
- It facilitates administrative tasks by allowing the admin to access all member details, including membership information.
- Members can conveniently check their own membership details using the application
- The system integrates React JS for front-end development, MongoDB for database management, and Express JS for backend functionalities.
- Through this application, admins can efficiently manage and track membership data, ensuring smooth operations within the gym.

E-Commerce App

- React Native technology enables the creation of mobile ecommerce applications for both Android and iOS platforms using the same codebase.
- By leveraging React Native, developers can significantly reduce the time and cost associated with developing native apps for multiple platforms.
- The technology is founded on JavaScript, a widely adopted language among developers, facilitating the construction of advanced mobile applications
- React Native streamlines the development process by allowing developers to write code once and deploy it across multiple platforms, enhancing efficiency and productivity.
- Mobile ecommerce apps built with React Native offer a seamless user experience across different devices, contributing to improved customer satisfaction and retention.

DECLARATION

I hereby declared that all the details mentioned above are in accordance with the truth and fact as per my knowledge and I hold the responsibility for the correctness of the above-mentioned particulars.
